All of Your Media—Now Playing on Your HDTV

- Watch and enjoy your media in HD
- Store your entire media library
- Stream all your media, no matter where it is in your house
- Keep your files organized with the automatic file sorter

Connect Your PC and HDTV

Play your movie library on your HDTV in two easy steps: connect the LaCinema Classic HD to your computer to easily store your movies, then connect it to your TV for instant playback. No configuration is required. You'll save time and avoid having to burn CDs/DVDs to hold all of your media. You'll also be able to store and enjoy your MKV, DivX, and many more file types on any TV.

Made for HDTV

Improve the look of your movies and photos on your HDTV with full HD 1080p playback and upscaling. With no compromise on quality, the LaCinema Classic HD goes one step further by adding stunning 1080p playback through HDMI 1.3. This multimedia hard disk supports a wide variety of video, photo, and music formats.

Easy to Use

With up to 2TB (2000GB) of storage available, you can store your entire digital media library in one location. This user-friendly drive, designed by Neil Poulton, adds sophisticated style to your home and it's fanless for silent operation. An easy-to-use on-screen menu and remote control have been designed to improve your experience. A front USB port allows you to quickly connect a USB storage key to instantly watch movies on your TV.

Media Player and Server Hard Disk

Its DLNA™ and UPnP™ capabilities ensure that the LaCinema Classic HD works in tandem with your home network, connecting easily to your PC or NAS, so it's easy to populate with your media. After that, it's simple to connect it to your HDTV, making viewing your movies and media in HD easy. Since it comes with the widely-used USB 2.0 interface, you can plug it into just about any PC or Mac for an easy, quick storage solution.

Features

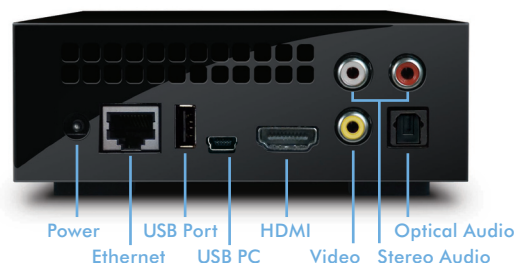

- Plays all your HD movies, music and photos
- Full HD 1080p playback
