

nero 9

Simply Create, Rip, Burn, Copy, Share, Backup, Play, and Enjoy.

Nero 9 is an easy-to-use yet powerful multimedia suite that gives you the freedom to create, rip, burn, edit, backup, share, and upload online whatever you want – music, videos, photos, data – and enjoy with family and friends. Using your intuitive Nero StartSmart command center, the digital life has never been more feasible and fun. Nero frees you to do more!

Highlights

- Fast and easy rip, burn, auto backup, and copy functions
- Create professional-looking DVD movies with integrated 3D menus
- Copy, burn, share, upload, and create music mixes like a DJ
- Convert music, photos, and DVDs to play on your iPod® and other mobile devices
- Recover data on damaged discs
- Backup files to CDs, DVDs, and Blu-ray Discs*
- Quick photo and video upload to My Nero, YouTube™, and MySpace™
- Watch, record, pause, and customize your live TV experience
- Play AVCHD and other HD formats

Simply Create & Edit

Amaze everyone – even yourself – when you create and edit, music, video and photo files into unique projects.

Music

Manage and play your favorite music titles, make your audio collection an MP3 library, listen to web radio, and enjoy your favorite music anywhere you go.

- One-click rip and burn features plus integrated Gracenote® MusicID® tracking information service makes creating MP3 files and MP4 audio files a snap with accurate song details, artist information, and album art.
- Browse media for playback, create playlists of your favorite audio tracks, shuffle and categorize tracks for easy reference. Transfer playlists to your MP3 player.
- Simply grab the audio track from music videos and add it to your MP3 music library with Music Grabber.

Video

Get professional results in an easy-to-use video creation and editing tool. Insert 2D or 3D menus templates and enhance your videos by adding your favorite soundtrack.

- Capture video from HD camcorders and record projects to AVCHD and Blu-ray Discs*. Save time with Nero's Smart Encoding for AVCHD.
- Use the Movie Wizard template library to create entertaining movies. Automatically integrates transitions, titles, and matching music for entertaining home movies.
- Watch music videos without commercials using Ad Spotter to automatically cut ads out.

Photos

Make all your digital photos come to life. Share the stories of your life's most memorable moments.

- Browse photos in full screen and use editing tools to crop, rotate, adjust, and enhance photo quality.
- Create DVDs with photos and 3D menus, as well as photo slide shows with effects, transitions, and music.

nero 9

Easily Convert & Share

Convert and share multimedia files to play on iPod®, PSP®, and upload online.

Enjoy everything digital multimedia has to offer. Whether it's music, photos, or videos, you can convert and share everything your imagination creates in your digital world.

- Convert your music, photos, and videos to DVD, CD, or your portable devices and enjoy them on the go.
- Upload your coolest photos and videos to share with online communities like My Nero, YouTube™, and MySpace™.
- Listen to your favorite web radio stations, subscribe to and download podcasts, and sync audio broadcasts to your iPod® or PSP®.
- Convert your old LPs, old cassettes and CDs to MP3s and preserve them forever.

Fully Experience Home Entertainment

Record, manage, playback, and fully enjoy your favorite TV shows.

Amazing TV experience from the comfort of your sofa gives you state-of-the-art TV technology, even for HDTV and DVB Radio.

- Pause, record, schedule, manage, and play back your TV shows.
- Watch High Definition TV and use the PiP (Picture in Picture) mode for watching two channels at the same time.

- Stream High Definition video content, photo slide shows, and your favorite music files to any UPnP™ or DLNA®-compatible media players, including Xbox 360® and PlayStation® 3.
- Nero Live integrates into Windows Vista® Media Center. Works as single application in Windows® XP*.
- Support for popular TV tuner cards including ATSC-T, DVB-T, DVB-C, DVB-S, DVB-S2 and simultaneously supports up to four tuners.

Quickly Rip & Burn Best in the World.

Ripping and burning capabilities integrated are the most reliable in the industry. Burn and copy to CD, DVD, and Blu-ray Disc – even copy movies*. With DVD-R Dual Layer and DVD+R Double Layer support, you'll get more data on a disc than ever before!

- Easy ripping, burning and copying directly from Nero StartSmart.
- Give every disc your personal touch by customizing disc labels, covers, and booklets.
- One-click disc copy with Nero DiscCopy Gadget (Optimized for Windows Vista®).

Reliably Backup

Safely archive, protect, and manage your multimedia library for generations to come.

Don't lose your valuable memories and important files to life's potential hazards, or risky hardware. Backing up, securing, managing files and data is a point-and-click away.

- Safely guard your valuable data by backing up files, folders, drives, even entire systems to an internal or external drive.
- Backup all your precious data directly from the easy-to-use Nero StartSmart.
- Customize automatic functions, allowing for easy and convenient Auto Backup (offline or online*).
- Schedule automatic backups to ensure your data is safe, even when you're away.
- Recover data on damaged discs with Nero RescueAgent.

* Please Note: Free online activation required for full DVD, MPEG-2, MPEG-4, AVC, and related functionalities. Does not copy DVDs or other discs with copy protection. Blu-ray capabilities are subject to change, check www.nero.com for updates. Blu-ray and SecurDisc technologies require compatible disc burning drives, special hardware and/or additional software. Sharing content on MyNero, YouTube™, MySpace™, and other online communities is subject to availability. Transcoding supports all popular formats for portable and mobile devices. Online backup requires subscription.

Visit www.nero.com for continual FREE updates.

System Requirements

General System Requirements

- A DVD-ROM drive is required for installation
- Windows® XP SP2 and SP3, Windows Vista®, Windows Vista® SP1, Windows® XP Media Center Edition 2005 SP2, Windows® Server 2003 SP 1, Windows Vista® x64 Edition (all applications except InCD and Nero DiscCopy Gadget work in 32-bit emulation mode)
- Windows® Internet Explorer® 6.0 or higher
- 1 GHz Intel® Pentium® III or equivalent AMD and Intel® processors (2 GHz Intel® Pentium® 4 or equivalent AMD and Intel® processors for Windows Vista®), 256 MB RAM (512 MB RAM for Windows Vista®)
- 1.5 GB hard drive space for a typical installation of all components
- CD, DVD, or Blu-ray Disc recordable or rewritable drive for burning
- DirectX® 9.0c revision 30 (August 2006) or higher
- Up to 9 GB available hard drive space for DVD images and temporary DVD files

- Graphics card with at least 32 MB video memory and minimum resolution of 800 x 600 pixels and 16-bit color settings (24-bit or 32-bit true color is recommended)
- Installation of the latest WHQL certified device drivers is strongly recommended
- For the Nero Online services: Nero product registration, product updates, patent activation, Gracenote® services, Nero Online Backup and other features (such as photo sharing) an Internet connection is required. Nero recommends a broadband connection (DSL-1000 and higher or Internet connection with equivalent performance) for all Nero online services such as Nero Online Backup and Nero Video Services. Internet connection charges are the user's responsibility

Please Note:

General System Requirements are the minimum requirements for basic functionality. If you are interested in more advanced features like TV recording or real-time capturing and High Definition recording or authoring, the requirements will be higher. Please see our website www.nero.com for more information.
